

INDUSTRY CAPABILITIES

Oil and Gas

“ AT SLADE INDUSTRIES WE ARE HIGHLY SKILLED IN THE OIL AND GAS DISCIPLINES. IN FACT, YOU COULD CALL US SPECIALISTS, AND YOU SHOULD. DUE TO OUR DIVERSE TEAM AND HISTORY OF SUCCESS WE ARE ABLE TO SEAMLESSLY MOVE THROUGH VARIOUS ARENAS, GUARANTEEING YOUR PROJECTS SUCCESS AND EFFICIENCY. ”

Instrumentation and Electrical Installation

The Installation process is key to the success of any plant. When you're making an investment of this magnitude it is absolutely paramount to partner with the right team. At Slade Industries we are that team. We provide specialist installation services to ensure the success of your project every step of the way. Our installations consider the plant maintenance aspect, so it can be maintained effectively throughout its lifecycle.

Instrumentation and Electrical Pre-Commissioning and Commissioning

Once we've completed your installation we are able to take it further and ensure its capabilities through thorough testing. We perform calibrations, configuration, loop and function testing and document the entire process to provide a complete as-built handover package so you can be granted the peace of mind you deserve.

Operational Readiness

At Slade Industries we work tirelessly to ensure your plants operational readiness so it will deliver the outcomes it was originally designed for. We will provide you with the certainty and peace of mind that when the plant is commissioned it is production ready. To put it simply, our back up plans have back up plans.

Instrumentation and Electrical Maintenance

In terms of Instrumentation and Electrical maintenance Slade Industries have you covered. Breakdown recovery, preventative maintenance and asset management are just a few of the capabilities we provide to successfully maintain your plant.

Shutdown Services

At Slade Industries we are able to safely and efficiently assist you with the planning and preparation for your shutdown with respect to the Instrumentation and Electrical works.

Our efforts include the coordination of obtaining human resources, materials, equipment, documentation, scheduling and liaising with other trades and services. We are here to make this process as seamless as possible for you and while 'controlled chaos' may have worked in the past, we're here to bring you into the future.

Paperless Documentation Technology and Solutions

At Slade Industry our focus is always on optimum efficiency and cost control. We are able to provide paperless documentation technology and solutions to ensure speed and accuracy, placing you one step ahead of the game. And in addition, we are able to maintain our environmental integrity ensuring minimal environmental impact.
