

## OUR MISSION

“ AT SLADE INDUSTRIES WE ARE SPECIALISTS IN PROCESS CONTROL, INSTRUMENTATION, ELECTRICAL AND HAZARDOUS AREAS WITH AN APPROACH THAT EMPHASISES EFFICIENCY AND INTEGRITY. ”

## OUR HISTORY

SLADE INDUSTRIES BEGAN AS A FAMILY BUSINESS IN 1975 UNDER THE NAME, 'INSTRUMENT MAINTENANCE SERVICES'

Originally our business focused on Instrumentation and Electrical services on sites such as Mobil, Santos and Nabalco. For 35 years the company masterfully serviced these areas until, in 2010 we diversified by forming a second company that specialised in Construction and Commissioning services within the Instrumentation and Electrical field.

After seeing much success with both businesses it was decided to merge them into one under the name, Slade Industries. This new name represents the Slade family and serves as a testament to the strength and integrity of the company.

At Slade Industries we proudly provide our clients with the highest degree of service whilst creating efficient solutions that work.

# CONSTRUCTION

## YOU COULD POTENTIALLY CALL US ‘EFFICIENCY SPECIALISTS’ OR ‘OWNER REPRESENTATIVES’.

The fact is, it doesn't really matter what you call us, but that you clearly understand what we do. And that is, structure project lifecycles to facilitate the efficient and productive completion of the construction phase.

Instrumentation is a highly specialised field that requires professionals. When it comes to instrumentation installation the last thing you want to do is leave it to unskilled or inexperienced workers. The risk is simply too high.

At Slade Industries we are able to provide highly skilled Instrumentation Installation Teams for your project to eliminate risk and assisting with operational readiness of the facility, ultimately ensuring the project is done right, the first time.

“ AT SLADE INDUSTRIES WE ARE ABLE TO PROVIDE HIGHLY SKILLED INSTRUMENTATION INSTALLATION TEAMS FOR YOUR PROJECT TO ELIMINATE RISK AND ASSISTING WITH OPERATIONAL READINESS. ”

# COMMISSIONING

WHILST YOUR CONSTRUCTION COMPANY MAY HAVE COMPLETED THE INSTALLATION PRECISELY TO YOUR REQUIREMENTS, IT'S ALWAYS A GOOD IDEA TO ENGAGE AN OUTSIDE SOURCE FOR THE COMMISSIONING PROCESS.

This will ensure the commissioning of your plant and equipment is completed to YOUR standards.

Many constructors KPI's don't include the operational readiness of your project. It's just simply not their speciality. But, at Slade Industries certifying the operational effectiveness is what we were made to do. We are aligned with your desires and will ensure the completed facility does what it is designed and constructed to do. We see the project one step further, and isn't that exactly what you're looking for?

What do you get when you engage a dedicated commissioning company? Our drivers are entirely different to that of an installation company, in order for us to rest easy at night we have to:

- Ensure it is safe
- Work in both an efficient and thorough manner
- Be single-minded about the commissioning process
- Maintain high standards of documentation and traceability
- Reduce paperwork – we embrace technology to improve the process.

“ WE SEE THE PROJECT ONE STEP FURTHER, AND ISN'T THAT EXACTLY WHAT YOU'RE LOOKING FOR? ”

# MAINTENANCE

AT SLADE INDUSTRIES WE WHOLEHEARTEDLY APPRECIATE THE IMPORTANCE OF MAINTAINING THE INTELLIGENCE OF A FACILITY.

Sure, many other organisations may have the capacity to bring you through the progression of construction to operations. However, Slade Industries does that and more. Not only will we ensure an efficient progression through the early stages of a project, we can ensure that your facility maintains its integrity and intelligence by providing ongoing maintenance services. The absolute best way to ensure the ongoing success of your facility is to minimise the handovers and maintain the company who already knows the operation and functionality of the process plant.

Due to our rigorous recruitment processes, our highly skilled tradespeople are thoroughly trained, qualified, and experienced to better ensure the plant lifecycle maintenance.

Slade Industries is proud to say that many of our clients have used us not only for the completions and commissioning work, but have also kept us on for the maintenance of the plant and equipment once it progressed into the production stage.

“ WE CAN ENSURE THAT YOUR FACILITY MAINTAINS ITS INTEGRITY AND INTELLIGENCE BY PROVIDING ONGOING MAINTENANCE SERVICES. ”

## A NOTE FROM OUR CEO

A LOT HAS CHANGED SINCE 1975 BUT SLADE INDUSTRIES CLIENT COMMITMENT HAS NOT...

I'd like to take a moment to personally thank you for the consideration of your future engagement with Slade Industries. We are all about providing you the highest possible level of service, efficiency and results. The Slade Industries team exists solely of specialists who are dedicated to our clients and ensuring their experience with us is a seamless one. I am proud to say we approach each project with integrity, ingenuity and dependability at the forefront of our minds. We are looking forward to the chance to further prove our capabilities to you.

**Michael Slade**  
CEO Slade Industries

“ Slade Industries have been a pleasure to work with. As a Commissioning Manager it is important to have strong and capable personnel that work with integrity and always focus on what is best for the project and client alike. Slade has always provided personnel of the highest calibre and gone above and beyond to assist in areas as and when required.

Every engagement has been built on mutual trust, and expert ability. Working with suppliers such as this makes my job easy and I would highly recommend their services and professionalism to any prospective client. ”
